<b>UPDATES</b>			
Gavin Mitchell	Nyamal AC	Recap on meeting outcomes from Friday 3/4/20	
		<p>Key focus points:</p> <ol style="list-style-type: none"> <li>1. Pandemic Plans</li> <li>2. Supply Chain work</li> <li>3. Regional Funding</li> <li>4. Medical and Health issues</li> </ol> <p>We are having difficulties in getting representatives from relevant Health departments and organisations onboard. We understand they are all busy, but we are able to assist them with their work.</p>	
Simon Taylor	Dept Communities	I followed up with Margie Faulkner yesterday and she is going to push for one of her staff members to attend.	
Gavin Mitchell	Nyamal AC	We are dealing with a health crisis. If we don't have their buy in we wont be able to assist to get things done.	
Simon Taylor	Dept Communities	Having health on this group is very important, it would be good if Danny had a substitute for the OASG meetings. Information sharing is important.	
Kathryn Bates	Nyamal/NPT	I am happy to attend the OASG meetings to take notes.	

	Teri O'Neill	YMAC	Happy to assist and work with Kathryn to co ordinate.	
	Simon Taylor	Dept Communities	We need to make sure that the work is not being duplicated, the here and now issues as well as the longer term approach through the strategic plans. There is a huge role for the corporations and organisations in the distribution of supplies to communities, that being established early on is a good thing. We will always provide a welfare response, but if there is the ability for people to set up their own structures this is a good thing.	
	Gavin Mitchell	Nyamal AC	That's right. We are the best people to help our people.	
	Teri O'Neill	YMAC	Did anything else come from the discussions with Red Cross	
	Gavin Mitchell	Nyamal AC	Yesterday we met with Simon Taylor, Shaye Hayden, Craig Stewart (Red Cross), Andrew White and Kathryn Bates. There will be a two-pronged approach, the now and the longer term. Red Cross is waiting for direction from us. Red Cross has sought funds from corporate partners. They are waiting on direction as to how to best distribute the aid.	
	Andrew White	Nyamal/NPT	Red Cross is currently on a watching brief. They are awaiting direction.	
	Kathryn Bates	Nyamal/NPT	Pandemic Plan information is being reviewed and condensed into a useable format so it is able to be interpreted in the most effective way with Ella's department.	
	Teri O'Neill	YMAC	We need to make sure that we are inclusive.	
	Simon Taylor	Dept Communities	Is there any value in having these meeting Tuesday and Thursday's as everyone is busy.	
	Teri O'Neill	YMAC	If people are able to read the notes, that's important.	
	Kathryn Bates	Nyamal/NPT	The daily meeting are important, we understand we are all busy however there are people dialling in from communities and organisations out in the regions who dial in so they can get information and be kept up to date. The purpose of this forum was to keep connected with the communities out in the regions so it is important that we keep up the daily calls to allow the people to keep informed.
