

REcov19ER Teleconference

Monday 20 April 2020

	Contributor	Organisation	Comments	Actions Arising
A	OPENING			
	Gavin Mitchell	Nyamal AC	Meeting open at 11:30am	
			Welcome and reminder of Purpose	
			One minutes silence - respect	
B	Community Updates			
	Kathryn Bates	ISPL/NPT	<p>Focus Group update – Regional Strategy and Recovery FG met last week with terms of reference agreed.</p> <p>Health Medical and Education has been meeting frequently, the community action plan is currently sitting with DoC for approval.</p> <p>There appears to be a general relaxing of social distancing and complacency amongst general population. This is a risk to everyone, in particular with the communities.</p> <p>DoC has this morning released an EOI for assistance with food delivery across the Pilbara.</p>	
	Gavin Mitchell	Nyamal AC	Agree, we must continue to be vigilant.	
	Grant Bussell	YHW AC	Complacency needs to be addressed and the best way to continue to ensure compliance is to share information to reaffirm the seriousness of the situation.	

	Danny Brown	Nyamal AC	I have been working hard to bring leaders back to the group. This is something that I have been tasked with. Spoken with Abby from NBAC and expecting more to join in again in the next week. Any promotion material for websites or to get out to communities is welcome.	
	Ash Councillor	GAC	We are working with Waka as there are still issues in the community with people moving around. We are still discussing making road blockages. Complacency still exists and bad behaviour still exists.	
	Ingrid Walkley	Warralong/Strelley Nomads	The donga has arrived on site so it has been good to see things happening on the ground for the community	
	Andrew White	ISPL/NPT	Food security group – have been meeting regularly, issued information last Friday evening and awaiting responses from the group members.	
	Lisa Fieldhouse	AIS/Pil Regiment	AbStudy can continue to be paid for boarding students. We are awaiting confirmation as to whether government will allow boarding students to attend government schools.	
	Gavin Mitchell	Nyamal AC	Discussing with ATLAS the possibility of getting access to Abydos camp. It is currently in care taker mode, ATLAS can provide the camp and will mobilise the catering and services staff from Mt Webber. Simon Taylor is aware of it, it is central to East Pilbara and is perfect location for quarantine area. Simon (DoC) had concerns regarding the time it would take to get the camp back operational however he was not aware it was in caretaker mode, so is more comfortable now.	
	Terry Butler-Blaxall	Warralong/Strelley Nomads	My understanding is that the camp can be reactivated at any time. The main Rd to the camp has been impacted by the rains, we can look at fixing the road.	
	Grant Bussell	YHW AC	The other issue is getting people in and out of the camp, there is no airstrip and transport of people should fall under DoC.	
	Gavin Mitchell	Nyamal AC	This will have a huge impact on the pandemic plans and how they operate. It is in a good location. Simon wasn't aware of the relationship we have with ATLAS or that the camp is in caretaker mode. He is positive about it.	

	Grant Bussell	YHW AC	It has been released this morning that take away alcohol restrictions have been lifted.	
D	CLOSING			
	Gavin Mitchell	Nyamal AC		
			Next meeting tomorrow 11.30am
