

REcov19ER Teleconference

Friday, 15 May 2020 – Community Update - ACTIONS

	Responsible Person	Description	Action
1	Gavin Mitchell/ Kathryn Bates	The REcov19ER team is in the process of developing a letter to relevant government agencies/taskforces that will outline the many concerns and challenges faced to-date. Clarity is also being sought on how the various government committees, etc. established during the pandemic are interacting/reporting to one another, being held accountable, and being resourced. It is intended upon receipt of this letter core team members should hold a follow-up meeting with key government staff involved to discuss the best course of action going forward and how this will involve REcov19ER. Should an appropriate, timely outcome not be reached, options to escalate matters are to be identified and pursued.	REcov19ER to finalise the pending letter (including additional feedback from today's meeting) and provide this to those responsible government agencies/taskforces for further discussion and follow-up.
2	Gavin Mitchell	Given the proposed changes to restrictions, as well as concerns shared, it is timely to check-in with Western Desert communities to see how they are getting on at the moment, and if there is anything REcov19ER can offer its support.	REcov19ER to follow-up with contacts at WDLAC.
3	Gavin Mitchell	As REcov19ER is still yet to receive a response regarding its pending funding application to BHP's Vital Resources Fund this should be followed up.	REcov19ER to confirm status of pending funding application to BHP's Vital Resources Fund.
